

# Pipeline Specifications

# Storage Tank

System Name: \_\_\_\_\_

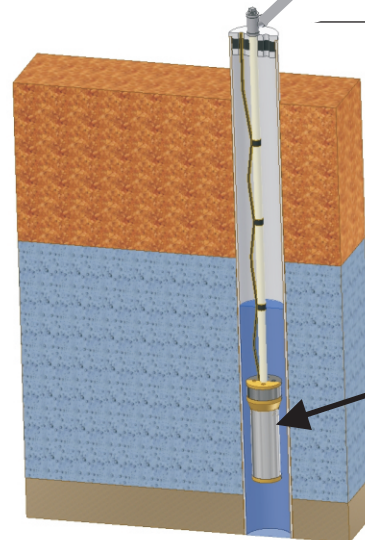

1. What is the vertical rise from the well to the top of the tank? \_\_\_\_\_ Feet
3. What is the desired system flow rate? \_\_\_\_\_ GPM
4. What is the length of the pipeline? \_\_\_\_\_ Feet
5. What is the diameter of the pipeline? \_\_\_\_\_ Inches
6. What type of pipe is being used? \_\_\_\_\_ PVC, Poly, Steel
7. What pressure rating of the pipe? \_\_\_\_\_ PSI
8. What actual inside diameter of the pipe? \_\_\_\_\_ Inches

Vertical Rise

Pipeline

See Well Specification Sheet for the well information form.

Water Well (Bore Hole)

Submersible Pump

Note: It is important to know the actual inside diameter of the pipe not just the nominal pipe diameter.
